The method of cooking food on stones can be traced back to the Ancient Egyptians & Vikings. Stonegrill® have refined & perfected this age-old idea for the modern-day diner & restaurateur.

---

How does it work?

It's an interactive experience. Your meal is served at the table on a super heated natural volcanic stone. The specially selected stones, chosen for their heat retention, are heated to 400°C in our purpose built oven.

---

What do I do?

Stonegrill® ensures that you will enjoy a meal freshly grilled to your personal taste, whether it be rare, medium or well done. Simply turn over your meal, to ensure that all of the natural juices & flavours remain inside. Then cut a portion or two & lay it on its side, allowing it to sear & cook to your liking.

---

Is Stonegrill® healthy?

Extremely. The absence of oils or fats & the quick searing of the product at a high temperature, ensures a delicious meal which is healthier & lower in calories than traditional cooking.

---

How long will the stone stay hot?

The volcanic stone remains at a prime cooking temperature for 30 minutes allowing you to eat at leisure, with every bite as hot & delicious as the first.
